SUMMARY

Frontend developer with 1 year of experience working with pure HTML/CSS/JavaScript, as well as implementing technologies as React, Bootstrap, and Typescript. Highly adept at writing well-structured, organized code and employing a mobile-first approach.

WORK EXPERIENCE

Ecostroy   **Irkutsk, Russia**

Junior Frontend Developer   May 2022 – Apr 2023

Developed and maintained web applications using HTML/CSS/JS, as well as technologies such as React, Bootstrap, Gulp, and TWIG. Created pixel-perfect and adaptive designs, employing BEM methodology, TypeScript, and ES6 to meet the high development standards.

- Developed web applications under the supervision of senior developers, created new ones from concept in collaboration with other team members.
- Provided code based on functional React components, SCSS, TypeScript, and ES6 to meet the modern development standards.
- Coordinated with other developers to understand functional requirements of applications.
- Worked and maintained projects based on GULP, TWIG, TailWind, and Bootstrap.
- Assisted in the development of new features and functionality for produced web applications.
- Collaborated with project managers to successfully deliver projects on time.
- Used GIT on a daily basis to implement CI/CD and collaborate with the team.
- Implemented tailor-made visual elements to enhance user experience based on design feedback and client requirements.
